RULES

- Marshfield Motor Speedway’s General Track Rules & Procedures will be implemented and can be found by accessing our website at: www.marshfieldspeedway.com
- Double file restarts in all divisions with leader taking the point alone. There will be a max of two double file restarts in all features and none with less than ten laps remaining.
- If the caution is brought out and more than one car is involved, track officials will determine who was the cause of such incident. If track officials are uncertain who caused the caution, we will revert to the gentleman’s rule. If no driver takes the blame for the caution, both drivers will be placed in the rear of the field and remain in the longest line after double file restarts.
- If you have any questions in regards to the rules, please email your question to: marshfieldmotorspeedway@yahoo.com or gusbe46@yahoo.com
- This is an invitational for all supporting divisions; you must bring your “HOME TRACK” rulebook and meet all specifications within that rulebook. Marshfield Motor Speedway will do its best to fit you into the proper division and make you competitive!
- Events will be rain dated for Sunday, September 11th.
